VILLA ANXIOUS FOR REMOVAL OF AMERICAN EMBARGO ON AMMUNITION AS AID TO HIS CAUSE.

FEDERALES IN FLIGHT

Admiral Mayo Gives Protection to Gunboat Load of Fugitives Among Whom is Officer Who Arrested United States Marines.

Washington, May 14.—Further confirmation of the fall of Tampico into the hands of the constitutionalists was received at the navy department today. A message from Rear Admiral Mayo transferred to Admiral Badger. This report says that the federal Mexican gunboat, Vera Cruz, is still on the river at the railroad bridge. Admiral Mayo further reported that the federal troops blew up their barracks before retreating from the city. By four o'clock yesterday afternoon the firing had practically ceased.

To Confer With Mayo. The captain of the Mexican federal gunboat, Bravo and Zaragoza, which came down the Pamuco river from Tampico yesterday afternoon, have asked Admiral Mayo for a conference. He informed them that he will receive them on board the Constitution.

The reported capture of Tampico by constitutionalists after a prolonged and stubborn siege, which ended with fierce fighting in the heart of the seaport, added something new to the exciting history of the Mexican situation.

On Western Coast. While the South American envoys and members of the administration are preparing for the Nacara Falls conference next Monday, officials in diplomatic and governmental circles discussed the possibility of what might grow out of the rebel victory. It was believed that the constitutionalists immediately would move to import arms and ammunition through Tampico for use in their southward campaign. If this were permitted some officials suggested today that Huerta would protest that the halting of shipment of arms for him at Vera Cruz was unjust.

That General Zaragoza's federales might attempt extreme reprisals in their reported retreat from Tampico was a fear unofficially expressed here today. It was suggested that as they fled back from the coast through the interior, they might ignite the oil tanks of petroleum, directing flow into the river, thus threatening a destructive fire in Tampico. Military observers here today stated that such a move was not to be unexpected.

Protect Oil Interests. With the transfer of Tampico from the Mexican federales to the constitutionalists, President Wilson now feels that it will be possible for the oil interests in the vicinity of Tampico to be protected. Generals Villa and Carranza have given their assurance that they would permit the conservation of oil in Tampico, and have notified the government of their willingness to have expert civilians return to the fields and take charge of the flowing wells.

Issues Orders to Mayo. Following further reports from Rear Admiral Badger and Admiral Mayo concerning the taking of the Mexican port by the constitutionalists, Secretary of the Navy Daniels authorized Mayo to return his ship to the Pamuco river. This was deemed expedient on account of the hurricanes now menacing the smaller boats.

An important conference was expected today on the battlefield between Admiral Mayo and the constitutionalists' admiral of the Mexican federal gunboat, which steamed out of the Pamuco river into the harbor yesterday following the evacuation of the city by Huerta's forces. The conference was arranged for yesterday but could not be held at that time on account of the heavy sea.

It was reported here today that an understanding had been reached between United States and the constitutional leaders, whereby all operations of various oil wells surrounding Tampico could resume work, under guarantee of protection by the constitutional government, general information to this effect was also communicated to representatives of all foreign governments for their interests in the vicinity of Tampico.

President Wilson has made inquiry as to bring about further assurances of safety to oil property in order that operations may be resumed.

No Word from Silliman. State department officials are still waiting with some anxiety for definite word from Vice Consul John R. Silliman, who has been imprisoned since the fall of Tampico. His release has been telegraphed from Mexico City to the proper officials at Saltillo. Lack of information in this respect has been attributed to the fact of the interrupted transportation and telegraphic facilities between Saltillo and the Mexican capital.

Officials said no further information had been received from General Huerta regarding the Lohos Island incident. It is assumed that Secretary Bryan's public announcement that the United States would welcome the return of the Mexicans to regain the rights, was made in response to the protest that General Huerta

had been imprisioned.

It was denied at the quartermaster's office that these transports are being used to ship supplies and ammunition to Galveston, as has been stated.

Constitutionalists Now In Control Of Important Mexican Seaport.

UNDENVERO

SEE FINISH OF THE REGIME OF HUERTA

Observers at Vera Cruz Predict Dictator Will Be Forced Out of Power by Revolutionaries or His Own Followers.

BY ASSOCIATED PRESS.

Vera Cruz, Mex., May 14.—Observers express the opinion that the taking of Tampico by the constitutionalists forms one of the closing scenes in the dictatorship of General Victoriano Huerta. They believe that his fall down is a question of weeks only, and perhaps days, while some think he will have but few hours before his control in the federal capital ends in riot and bloodshed. Even if he maintains order in Mexico City it is probable that Vera's guns will soon be thundering in the streets of the capital, and General Huerta fleeing with the remnant of his army to Puebla to make a last stand.

The loss of Tampico adds a chapter to the tale of disasters to General Huerta's forces, since General Villa has captured Juarez.

No further details are obtainable here today concerning the taking of Tampico by the constitutionalists, other than that the federal forces under General Zaragoza fled under cover of a downpour of rain, being followed by the Constitutionalists and those of Luis Caballero.

General Huerta now is hemmed in by the constitutionalists on the north while his most important seaport is in the hands of American troops, with American warships watching both ports to see that no arms or ammunition may reach his harried forces.

Of all the important railroads in Mexico, only those running from the capital to Puerto, Salina Cruz and Manzanillo remain completely under federal control.

Within six miles of Mexico City, Zapata and his band of lawless men rule the state of Morelos.

Farther south the Figueroa brothers and an army of bandits are running riot through the state of Guerrero.

Both of these forces menace Huerta from the south. To the west of the capital the railroad to Manzanillo is open, but American warships dominate the port while to the east Vera Cruz cut off and with it the whole stretch of wild-country northward to Tampico.

According to the latest information obtainable here, General Villa is besieging San Luis Potosi, if that city has not already fallen into the hands of the Constitutionalists.

The last American refugees who arrived here from San Luis Potosi left there with the sound of distant firing marking the end of a twenty-day siege and the coming of the Constitutionalists, demanded for evacuation of the city. The Federal commander, General Maas, has evidently refused the offer that he might march out with his troops and begin a hopeless battle against heavy odds.

Washington, May 14.—Prayers for the success of the South American revolution in the Mexican situation were requested at all the Methodist Episcopal churches on Sunday, May 17. This was the information today received in a communication by Earl Transtrom, senior bishop of the church. The bishops of the church, recently in session in Philadelphia, commended the president for accepting the mediation proposal.

CARNEGIE FOUNDATION TO HONOR KING VICTOR

SPECIAL TO THE GAZETTE.

Rome, May 14.—The Italian branch of the Carnegie Foundation today decided on the award of a magnificent golf medal to King Victor Emmanuel. Although King Victor speaks English perfectly, Ambassador Page, who will make the presentation as president of the Italian Branch, will deliver the brief address in Italian as a further compliment to his majesty. The award has been decided upon in regard of the manner in which King Victor has succeeded in the disasters in Italy such as the Sicilian earthquake, and worked personally in rescuing and caring for the victims. The date for the presentation has not yet been fixed.

News of Fall of Tampico Does Not Interrupt Preparations for Niagara Falls Meeting.

BY ASSOCIATED PRESS.

Washington, May 14.—While interest in the Mexican situation centered here today in the capture of Tampico by the constitutional forces, diplomatic and state department officials were busily engaged in contemplation of preparatory plans for the mediation conference at Niagara Falls, Ontario, on May 18, of next week.

American representatives to the mediation conference conferred with the state department today. Word has been received that the South Americans are waiting for definite word from Huerta's representatives, who are expected to reach Havana to-day.

DENY BRITISH INTERFERENCE.

London, England, May 14.—A denial was issued today by the British foreign office over the report published in the Standard, declaring that Sir Edward Grey had under consideration a dispatch from Sir Lionel Gardiner, British minister to Mexico City, dealing with the whole Mexican situation.

The Standard added that Sir Edward Grey avised that no useful purpose would be served by the South American delegation, and explaining that he would shortly propose a policy to minimize the possibility of further bloodshed.

Carranza's Representative.

Toronto, Ontario, May 14.—Jose Vasconcelos, a Mexican attorney, arrived here today as representative agent of General Carranza, commander-in-chief of the constitutionalists, to the Canadian government.

You sufferers from the dread malady of Rheumatism need suffer no longer. Chiropractic, the modern science, brings relief to any case of Rheumatism by going right at the cause and removing it. With the cause removed there can be no result and the rheumatism disappears as though by magic.

When the spinal bones begin to subluxate through strain, wrench or jar they exert undue pressure on the nerves passing through the spinal openings and which go to feed, with nerve force, the various parts of the body. This lack of nerve force in time causes many complications to set in.

If you suffer from Rheumatism come to me at once. Let me tell you more fully what Chiropractic can do.

Potash in Pompeii.

Dr. Kleiber, Swiss scientist, has discovered that the thick layer of ashes covering the ruins of Herculaneum and Pompeii contains large quantities of potash and argill, a valuable agricultural fertilizer. He believes the region around Vesuvius is rich in potash. It is proposed that the Italian government shall exploit the volcanic deposits commercially.

Matter of Course.

Probably the most typical illustration of modern culture was the reply of a lady who had been enthusiastic over the Wagnerian cycle, and "when I asked her to tell me quite honestly, as between old friends, if she really enjoyed it, replied: 'Oh, yes! I think one likes Wagner—doesn't one?'"

PLEASING CONCERT GREETED BY MANY

Auditorium at Cargill Church Was Well Filled at Home Talent Entertainment Last Night.

The home talent concert given last evening at the Cargill Methodist church under the auspices of Circle number one was attended by a larger crowd than was at first expected. The large auditorium was well filled, and everyone was pleased with the numbers as they were presented.

Prof. Bergmann of the Blind Institute, opened the entertainment with an organ solo. The selection was a difficult one and was well rendered. Miss Lillie Lowry, also of the Institute for the Blind, followed with a soprano solo. Miss Lowry has established a reputation in this city as having a high and clear soprano voice, which she exhibited last evening.

A selected reading by Miss Esther Barker was given extremely well. She was forced to answer to an encore. In fact, every number on the program was encored, the majority of the musicians and readers responding.

Mr. F. Richards followed Miss Barker's reading with a solo. He was swayed to an encore by singing "A Little Love, A Little Kiss" to his own accompaniment and clearly demonstrated his remarkable baritone voice. An orchestra selection by members of the high school organ section, and led by Miss Emily Sewall at the piano, proved delightful to the audience. This closed part one of the program. During the short intermission a silver collection was taken.

"The male quartet failed to appear, and a ladies quartet was substituted, the latter rendering two selections which were well received. The quartet was composed of the Mesdames Rose Deane, S. F. Richards and Nichols.

Rollo Dobson rendered "Schubert's Serenade" on his violin, with piano accompaniment, and was forced to answer with an encore. A soprano solo by Miss McCutcheon, "The Man of May," followed. It was an extremely difficult selection but was very well given. "The Soft Spot in B 606," a reading came next, and was given by Miss Evelyn Welsh. The selection was given with fine impersonation.

The last number on the program was a solo by Stanley Horwood. Mr. Horwood's rich bass voice filled the church with volume, and when he chose to answer to an encore when he rendered "My Antonia," a Scotch selection. Mrs. E. T. Richards accompanied all solo numbers on the piano and deserved especial mention.

The entire list of numbers were of a high class, and were thoroughly enjoyed and appreciated by the large audience.

MEXICO AND THE PANAMA CANAL

Mexico may be lowering and glowing at our door, and it may be that the Mexican and the American peoples have very little in common; but there is one thing that the turbulent citizens across the Rio Grande can enjoy with us, and with the entire world—the Panama Canal.

The Big Ditch will be open to the ships of the world. This includes men of war, as well as the peaceful merchantmen. Of course, if Mexico and the United States should really go to war, the canal would be closed during hostilities to the cruisers and gunboats of the southern republic. But their commercial vessels, so long as they carried no contraband of war, would continue to profit by the \$75,000,000 Uncle Sam spent in ten years of labor in behalf of the whole world.

We are authorized to sell this book, 'The Panama Canal,' for a limited time, at the low price of fifty cents. Save the coupon in another part of this paper and come around for YOUR COPY."

HAS THE NEW TARIFF MADE BUSINESS BAD?

Leading Bankers Say Enactment of Underwood Free Trade Tariff Has Depressed Business.

(By Winfield Jones.)

Washington, D. C., May 14.—The fact that general depression in business follows the enactment of the Underwood Free Trade tariff is more clearly perceived than in banking circles, says the American Economist in a recent issue.

All the labored assertions of cabinet members who are sent out on speech-making tours, and of senators and representatives in congress equally bent upon demonstrating the presence of excellent business conditions, go for nothing as against the testimony of the men who constantly have their fingers on the pulse of business. When the head of one of the largest banks in the United States says business is bad, business is bad.

There is no room for argument or dispute. Frank A. Vanderlip, president of the National City Bank of New York, speaking to the members of the American Cotton Manufacturers' Association, presented the uncontrovertible proof of the situation when he said:

"We are in a period of industrial and commercial depression. The marvel is not that in spite of our great resources we are in such a position, but rather with the terrible misconception on the part of public opinion, that under a popular government we are not in a condition of much deeper depression."

I regret that I cannot at the moment see any marked tendency in the direction of economic improvement. We have the promise of great crops, although there is much uncertainty between such an early promise and ultimate fulfillment. Should there be complete fulfillment of that promise it would, of course, temporarily at least, bring with it improvement. We may be permitted an increase of railroad rates, and that would be doubly helpful, first on the side of a bronze age fairer treatment. Business conditions are unsatisfactory, however, on account of fundamental reasons that are deeper than can be cured by one or both of these factors.

The incentive for business men to take new risks, to expand their activities, to lend them toward the inception of new or greater enterprises, has received a serious check in the unfair attitude of public opinion as exemplified in congress, by commissaries and in the printed page that reflects and reflects the state of public opinion. I do not believe that we can hope for permanent relief from the unsatisfactory position in which business is now placed unless we can get public opinion that more truly reflects a fair attitude based on correct economic principles.

It seems to me the highest duty of business men, particularly such as influence public opinion, as is represented here, to contribute the best that is in them toward the creation of a wiser, a sounder and a more intelligent public opinion in regard to business affairs.

That can neither be done by silent acquiescence nor by disinterested grumbling at existing tendencies. You must take your active part in forming public opinion. It is time for business men to speak out. Where errors are mistakes have been made let them be frankly acknowledged and instead upon a better understanding of your methods, your problems and your aims. Let your voice be frankness and honesty, and we may hope that an intelligent and informed public sentiment will give to business men fair play and to business an environment upon which sound

business can be solidly built.

Mr. Vandenberg called to business men to take a more active part in forming public opinion by me with the resolution adopted at the meeting of the American Protective Tariff League last January, earnestly urging upon business men a larger personal interest and participation in political affairs.

The time is ripe for such a development. American business is staggering under handicaps placed upon it by the blundering legislation of a democratic congress and administration. Not the fruition of the spirit of abundant crops, not the grants to the railroads of the privilege of increasing their rates to a point neither of these, nor both combined, will suffice to remove the handicaps imposed by the Wilson administration. Mr. Vandenberg holds that no relief is to be looked for until we can get a public opinion that more truly reflects a fair attitude based on correct economic principles. That is the truth of the matter. Improved business conditions must depend upon improved economic conditions; that is to say, a return to the progressive producing republican policy of protection to American labor and industry. The sooner this fact is recognized and accepted by American business men in politics the sooner will business get back to the normal. In the November congressional election the business man will have a chance to make his voice heard.

The time is ripe for such a development. American business is staggering under handicaps placed upon it by the blundering legislation of a democratic congress and administration. Not the fruition of the spirit of abundant crops, not the grants to the railroads of the privilege of increasing their rates to a point neither of these, nor both combined, will suffice to remove the handicaps imposed by the Wilson administration. Mr. Vandenberg holds that no relief is to be looked for until we can get a public opinion that more truly reflects a fair attitude based on correct economic principles. That is the truth of the matter. Improved business conditions must depend upon improved economic conditions; that is to say, a return to the progressive producing republican policy of protection to American labor and industry. The sooner this fact is recognized and accepted by American business men in politics the sooner will business get back to the normal. In the November congressional election the business man will have a chance to make his voice heard.

Mr. Vandenberg called to business men to take a more active part in forming public opinion by me with the resolution adopted at the meeting of the American Protective Tariff League last January, earnestly urging upon business men a larger personal interest and participation in political affairs.

BRITISH POLO FIVE EXPECT A TRIMMING

Crippled by Absence of Captain Lockett Leaves Invading Team in Bad Way to Defeat Americans.

[SPECIAL TO THE GAZETTE]

New York, May 14.—Britishers claim to be without cheer or hope over their chances of winning the British International Polo Cup series next month at Meadowbrook. Reason for the chunks of gloom which can be cut with a knife whenever English poloists meet to discuss the outlook is that Captain Vivian Lockett will not be at No. 3 position when the fracas opens.

It was the dashing, slashing defense and attack of Lockett who met every American, catapulting with the same sort of goods that stopped the Big Four temporarily on several occasions last year, made them begin all over again. It was Lockett's work more than the work of any two men on the English team which kept the American score down and the English tally up.

To replace Lockett the invaders will either have Lord Wodehouse or Lord Wimburne. Both are great players, but neither can class with Lockett. Neither can hope to stop the Watertown boys anywhere near as

FEVER-WEAKENED, DR. FARABEE'S PARTY, AFTER TERRIBLE YEAR IN UNEXPLORED BRAZILIAN JUNGLE, GETS TO BRITISH GULANA

Dr. William C. Farabee, steam yacht Pennsylvania and its commander, Captain J. H. Rewan, are weakened by fever and privation, members of the University of Pennsylvania's Amazon exploring expedition, under the leadership of Dr. William C. Farabee, has reached Georgetown, British Guiana, after having spent nearly a year in the jungles and unexplored regions of northern Brazil. The expedition left Philadelphia in March of last year. The explorers made the trip on the steam yacht Pennsylvania.

Social Contract.

An up-to-date bride, when asked at her wedding if she would "love, honor and obey," murmured, "I will if he is good." Men, however, are not always what they should be. It is said by British papers to lack team work and pep and the ponies they are using are very ordinary ones. This is too bad, especially because there is no chance now to re-organize or gather more talent.

For a while the Englishmen considered trying to postpone the meet, but this has been given up. Viewing the matter as a whole, they are feeling very glum over it. In one respect at least they are showing better sportsmanship than has previously been their habit. They are wise enough to do their beefing before rather than after.

Jimmy Sheekard, manager of the Cleveland A. A. team, is carrying twenty-three men with him. The idea being with Jimmy that he has a chance in this way to pick perhaps eight or ten real ball players. If he does he's very fortunate.

With Johnny Evers in the Boston Braves' line-up there will be quite a bit of baseball strategy from that quarter this season. The team is already showing the results of Johnny's presence. Kraft is at first base as shrewd and slick a person as his name would imply.

The St. Louis Feds are being called the Terriers. The name would better fit one of the Boston teams. Too late now, too late.

Bill James, now pitching for the St. Louis Browns, has had a pleasant revenge on the Cleveland Naps. And on most of the Cleveland fans, too. When Bill was with Cleveland early last season he didn't make much of an impression. The Naps released him this season, with the Browns he has already licked the Naps twice and in a most decisive fashion. The form he has shown against the Naps is a remarkable improvement over what he had a year ago. His control has improved remarkably and he fields his position much better. When he appeared in Cleveland the fans didn't give him much of a hand at first. But after a number of innings had gone by and the Naps had done little if anything with Bill's delivery the Nap fans realized that it would

The Out of Doors Man

STANDARD

Long Cut Tobacco

because it's got the right stuff in it.

Satisfaction—for a sturdy man—can come from real tobacco only. Insipid mixtures don't appeal to a man with real tobacco hunger.

STANDARD is pure Kentucky leaf, with the "body" for a real smoke, yet rich and pleasing. It takes three to five years to age the tobacco in STANDARD; the process can't be hurried. That's the reason STANDARD is so ripe and mellow.

STANDARD will "make good" the very first time you smoke it. But if you want to prove that STANDARD satisfaction isn't a "flash in the pan" give STANDARD a week's trial. Then you'll know that STANDARD always satisfies, and you'll always keep on using it.

SOUND ADVICE.

Is congress burning the candle at both ends or not? That is a question that bothers the business interests of the country. Down in New York confidence in the democratic administration's policies is on the wane. The Wall Street Journal says:

"In the first six months of the new democratic tariff the import of manufactured articles into this country has increased, the export of our own manufacturers has decreased, and the import of raw materials for manufacture has also decreased."

"It need hardly be said there is a serious deficit in revenue from customs duties, which presumably is to be met by the income tax. But this is by no means an adequate explanation. Having passed a tariff lower than any in half a century, it was the duty of the democratic party to stimulate production by every possible means."

"Had business been unfettered, had the railroads been able to operate at reasonable rates, had the investor of small capital been assured of protection and profit in industry, the story might have been very different. It was plainly up to the democratic party to show that its tariff would stimulate the business of the country. To do so, obviously, every restriction on production should have been removed. Instead of this the administration and its followers chose to burn the candle at both ends."

"By needless activity of the department of justice, by endless delays of the Interstate Commerce Commission, by the threatened perpetration of harassing legislation of every conceivable kind, by the exploitation of every dangerous bad dormant since the bad days of eighteen years ago, the business of the country has been reduced to the minimum dictated by safety. The new tariff, in other words, was never allowed a chance to stimulate business."

"It must be plain to the blindest politician in congress, if he would only stop talking for a moment to think that he cannot have it both ways. Freedom of trade in the international business of the country pre-supposes freedom in industrial production. If this is denied, it does not matter what the tariff may be. The man with money to invest or lend will keep it beyond the reach of mischievous legislation."

"If congress, as represented by its democratic majority, is to make any showing in the elections of next November, it must abandon the anti-trust bill, throwing in its operation another \$10,000,000 upon the shoulders of the consumer, its pork barrel appropriations, and every new enactment which can hamper production on the largest possible scale."

"This is the only alternative. If the democratic party does not want to see its tariff act go down to rack and ruin it must free the industries of the country. It cannot burn the candle at both ends."

A SHORT PROGRAM:
The Evening Wisconsin comments on the recent caucus of the democratic members of the house of representatives in the following manner:

"A caucus of democratic members of the house of representatives attended by two hundred and thirty members, of whom all but twenty voted in favor of what is understood to be the policy of the president, would seem to have settled the program of the popular branch of congress for the immediate future, indicating that the assertions that President Wilson had reached a rough place in the road and lost his control of the reins were made without perfect understanding of the actual situation."

"The tariff, the currency and the trusts were three subjects on which at the outset of his administration President Wilson asked for legislation. Numbers one and two have been players, and the understanding now is that the orchestra will pay no heed to calls from various sources for music not on the program, but will execute the anti-trust number and enjoy an intermission. This evades prohibition and votes for women, and leaves farm credits and other subjects of proposed legislation to wait till after election."

"The president was ambitious at one time to hurry forward other matters, especially rural credits, but seems to have discovered that the force of the current is weakened in proportion to the increasing breadth of a stream, and that concentration for the sake of efficiency is essential if there is to be a continuation of accomplishment."

"All through the session the president has had an easy time in getting what he desired from the lower house, but has been obstructed though not thwarted in the senate. If the senate finally agrees to the repeal of the clause of the canal tolls bill conceding free passage to American ships in the coastwise trade, he will have reason to consider himself in respect of his relations with the legislative department of the government a remarkably fortunate executive."

REAL FAIR.

While all plans have not yet been completed for the first Janesville fair to be held next August, roughly speaking, a general idea has been mapped out that will give every department suitable quarters for exhibition purposes so that it will be a real fair and not any make-believe one. After careful consideration of the best methods to follow out, the directors have decided to tear down the present grandstand, which has been declared unsafe and would need considerable money to repair for use this year, erect a new stand with exhibit hall underneath, and at the same time utilize the lumber in the old stand for the erection of cattle, swine and sheep exhibit stalls. There will be the domestic and art hall, the horticultural, agricultural, floral and domestic science halls, barns for the stabling of the expensive exhibit horses and two stock barns all ready when the fair opens. The poultry exhibit location will be decided later and may be under the grandstand if this space is not utilized for other purposes. Repairs will be made to grounds, the tracks will be put in excellent shape and when the time comes for the opening of the gates Janesville will have an exhibit grounds that will be well worth visiting. It is going to be a real fair and everyone should start boosting at once.

SCHOOL GROUNDS.
While there was such a hue and cry about making the back yards and vacant lots throughout the city clean and presentable, it would appear that someone had forgotten the school grounds. While some of the janitors evidently take pride in the appearance of the grounds about the buildings they are employed in, others apparently are negligent in this respect. It does not set a good example to the pupils to see unkempt school property while told to clean up at home. It is a poor saying that will not work both ways.

SAD BUT TRUE.
Seventeen flags on a dead man's chest, Yo, ho, ho, and bottle of grape juice."—An Easter Exchange.

It looks now as though the democrats would settle down on a ticket with Aylward for senator and Karel for governor. Oh, what a slaughter there would be. The Luther League was plainly up to the democratic party to show that its tariff would stimulate the business of the country. To do so, obviously, every restriction on production should have been removed. Instead of this the administration and its followers chose to burn the candle at both ends.

The way our new street commissioner is starting out handling city affairs is most commendable. If the weather ever gets warm enough the oiling of the streets will be started.

A Metamorphosis.
Under the spreading chestnut tree
The village smithy stood;
The smith, a mighty man was he,
Industrious and good.

He did repairing in those days
At very slight expense,
And very seldom did his bill
Run over 50 cents.

He lived within a humble cot,
And poverty he knew,
And luxuries that came his way
Were very, very few.

Then came the metamorphosis,
He's now a millionaire;
He has a mansion and a yacht,
And railroad bonds to spare.

He doesn't tinker wagons now;

Where once he fade a dime
He charges \$30 for
Five minutes of his time.

The humble blacksmith is no more,

He's running a high-toned garage.

And tinkers' limousines.

A process of hardening steel with compressed air is said to be in successful use by a German firm in cases where only certain parts of the metal require hardening.

Travelers in the cities of the Orient are always very much interested in the picturesque water carriers who make their rounds carrying on their backs water bottles in the shape of goatskins, from which the vessels of the watercarriers pass are filled from time to time. These skins bottles generally emanate from the City of Hebron, in Palestine, where there is a watercarrier's market, where these things are sold in large numbers and find their way to all parts of the Orient. Lying upon the ground in rows may be seen two and three hundred goatskins awaiting purchasers. Each skin is inflated, either with water or air, so that the buyer may know that it is perfectly watertight. The majority of the skins used come from India, while a large number are also received from Persia, Lebanon, Syria, and Egypt. These are brought to Hebron by the camel caravans, and are purchased by the proprietors of the tanneys and turned into bottles. They pass through many processes, and a tanner will spend a week upon a single skin before it is rendered watertight and serviceable. From Hebron these odd "bottles" are sent to all parts of the East, thousands going down into Egypt and the Sudan every year.

DIRECTORS DECIDE IMPORTANT CHANGE

NEW GRANDSTAND TO BE CONSTRUCTED AT ONCE—COMBINES EXHIBIT HALL AND GRANDSTAND.

RUSH WORK FOR FAIR

Two Stock Barns, Cattle, Swine and Sheep Sheds to be Erected From Old Grandstand Material.

At a meeting of the directors of the Park Association held last evening it was decided to tear down the present grandstand at the association's grounds and construct a new one. Plans had been drawn for one bid, which had been asked for in case it was found the present structure could not be repaired at a nominal cost to make it safe for the present season at least. Upon report of the contractors who had examined the old structure it was decided it was not feasible to repair it and the bid of Joseph Denning to construct an entirely new building was accepted.

Mr. Denning will start work at once, and his contract calls for its completion by July 14.

TWO IN ONE.

The stand will be 144 feet by 48, and 47 feet high. It will be covered, on the ground floor an exhibit hall, the same size as the stand itself, will be finished. This will give the association two buildings in one. An exhibit hall that can be utilized for various purposes, for art needlework, or for concessions, which are an important asset at any fair. It had been planned to construct a special building for this purpose by combining the two in one a great saving could be made.

The stand itself will have a seating capacity of two thousand and will cost something over nine thousand dollars.

The Old Material.
It is planned to use the old lumber in the present stand for the building of the cattle, swine and sheep exhibit pens. There will be one hundred and fifty stalls for cattle, two hundred for swine and accommodations for one hundred and fifty sheep or more.

The plans of these stalls have not been worked out yet, but created they will be placed at the west end of the grounds, leaving the east end free for concessions and dining tents.

OTHER ARRANGEMENTS.

There are two buildings on the grounds that will be put in shape for use one as a domestic hall, the other with four wings, for agriculture, horticultural, floral and domestic science exhibits. There is also one large barn that can be arranged to accommodate fifteen head of high grade horses, and accommodations will be made for caring for over a hundred head aside.

TWO STOCK BARNs.

Work is already under way on the two new stock barns, which cost \$3,360, and will increase the stable accommodations for the horsemen to a hundred and six. Last year there were a hundred and twenty-five valuable race horses on the grounds, quartered in tents, to which the owners objected and threatened to cut Janesville off the list if they had to be quartered there again.

RUSH EVERYTHING.

Work is being rushed to have everything in readiness long before the fair time arrives. Inquiries as to accommodations, premiums and plans are being received by Secretary Putman daily. Indications point to a most successful fair. The speed program has not yet been decided upon but it is safe to say that a bigger field of high class horses will start at the Janesville track than at any other track in Wisconsin during the summer.

TESTIMONY CLOSED IN GRIFFIN TRIAL

Attorneys to Argue Case Before Judge Maxfield on May Nineteenth.

DISMISSED JURY.

At the close of the testimony in the case of the City vs. Mabel Griffin, charged with violating the city ordinance for being an inmate at a disorderly house, this afternoon, the attorney moved to adjourn the case until the 19th, when arguments will be heard.

Late this morning and this afternoon testimony was taken in the case. Mabel Griffin was placed on the stand the greater part of the afternoon and subjected to a close examination by City Attorney W. H. Dougherty. The jury subpoenaed was dismissed, the attorneys agreeing to hold a court trial before Judge Maxfield.

SHOWS GRAIN CROPS ABOVE THE AVERAGE

ASSESS HEAVY TAX ON MORGAN ESTATE; \$80,000 IN GIFTS

Inheritance Tax of \$724 Will Be Levied on Heirs Following Hearing in Probate Court.

As the result of a hearing which closed yesterday before Judge Fifield in probate court, the heirs of the late Sylvester Morgan of the town of Lima, will be assessed some \$724 in inheritance taxes. John H. Hartigan, investigator for the state of the commission, who had charge of the case for the state, with the assistance of District Attorney S. G. Dunwiddie, was able to locate and trace some \$80,000 worth of property which Mr. Morgan had deeded or given outright to his sons and grandchildren during his lifetime in an alleged attempt to escape having his estate probated in the city.

Mrs. Morgan, the widow, Howard and Willis Morgan, son of the deceased, were called upon to testify in the matter yesterday. The only other heir is W. Burton Morgan, who resides at St. Louis.

Attest: EDW. J. TRACEY, Town Clerk.

Referred to committee No. 12.

Supervisor Hansen submitted the following:

To the Honorable Board of Supervisors of Rock County, Wis.—Gentlemen: Whereas at a regular town meeting held in the town of Newark, in said county, on the 7th day of April, 1914, a special tax of \$1,500 was voted under chapter 435, laws of 1911, for the building of five bridges located as follows: One on the Newark and Orfordville road about 40 rods south of the Newark creamery; one on the same road about 15 rods south of what is known as King's corners; one on the Monroe road near the northeast corner of section 27; one on the Hanover road about 15 rods south of Keithline's corner; one on the same road about 95 rods south of the Emerson school house; the total estimated cost of said bridges being \$3,000. Therefore, we, the undersigned supervisors of said town, do hereby petition your honorable body to appropriate the sum of \$1,500 to cover the county's share of the cost of said bridges, in accordance with the provisions above referred to.

B. C. HANSEN, GERMAN MAHLUM, JULIUS COUSIN, Supervisors.

Referred to committee No. 12.

Supervisor John Tullar presented the following resolution and moved its adoption:

Resolved by the County Board of Supervisors of Rock County, That whereas the First National bank of Edgerton has filed a depository surety bond for the sum of twenty-five thousand (\$25,000) dollars, and whereas said bond is largely in excess of the requirements of law and the amount of county funds now on deposit in said bank; therefore

Adopted by the following vote:

Ayes—Anderson, Austin, Bennett, Dennis, Bingham, Crall, Cullen, Dalton, Denning, Doty, Ebbott, Hofman, Hansen, Hopkins, Hull, Keough, McGee, Marquart, McCarthy, O'Neal, Onsgard, Overton, Paulson, Peterson, Rehfeld, Richardson, Ross, Treadaway, Swingle, Sykes, Tullar, Warner, Moseley—35.

Nays—Absent—4.

Supervisor E. C. Hopkins presented the following resolution and moved its adoption:

Resolved by the County Board of Supervisors of Rock County, Wisconsin—Gentlemen: Whereas, at the regular town meeting held in the town of Magnolia, said county, on the first day of April, 1913, a special tax of five hundred dollars (\$500.00) was voted for the repair of the bridge known as the Black Hawk bridge, located near the east line of section 31 of said town, the condition of said bridge requiring immediate rebuilding.

Therefore we, the undersigned supervisors of the town of Magnolia, do hereby petition your honorable body to appropriate an equal amount to cover the county's share of the cost of the improvement to be expended for the above purpose, in accordance with the provisions of chapter 337, Laws of 1911.

E. L. BINGHAM, JOHN McKEWAN, H. D. SMITH.

Referred to committee No. 12.

Supervisor McGee submitted the following:

At a town election held in the town of Janesville April 7, 1914, seven hundred dollars (\$700.00) which in 1913 had been voted, was put in the tax levy for 1913 to be used in 1914 for the repair under state and county aid of what is known as the four mile or Humes bridge which crosses Rock river, running east and west on section line between sections 10 (10) and fifteen (15). The state highway commission upon investigation does not consider such improvements as asked for, namely, replanking and new stringers, and such other repairs as may be necessary worthy of state aid; therefore advised the town to take action at the 1914 spring meeting, by voting the seven hundred dollars so saved and use towards such repairs. Resolution was properly introduced at the time for conducting business, unanimously adopted and instructing the incoming chairman to petition the county for aid.

Supervisor Smith moved that clerk ballot for Mr. Rehfeld.

Ballot so cast and Mr. Rehfeld was duly elected.

Supervisor Smith moved that the former board govern this third, with the exception that theies of committee No. 6 be changed striking out the words "permanent," so it will read "Prospective highway and supervisor of highways' port;" and further, that the duties committee No. 5 be changed to cover the report county school board education and educational matters.

Supervisor Richardson moved to defer the resolution and vote on each item separately.

First as to committee No. 5, voted.

Second, as to committee No. 6. On roll it was lost by the following vote:

—Dalton, Doty, Ebbott, H. S. McGee, Benson, O'Neal, Anderson, Steele, Stoney, Swingle, Treadaway, Cullen, Bennett, Bingham, H. D. Denning, Warner, Hansen, Marquart, Maxson, Hull, Keough, Onsgard, Overton, Peterson, Rutherford, Rehfeld, Richardson, Ross, Smith, Austin, Hofman, Moseley—21.

Supervisor Richardson moved that the supervisor of highways Chas Moore addressed the board in regard to expenditures on highways and advisability of establishing stone planter.

Supervisor Richardson moved that rd visit road near Evansville afternoon.

Supervisor Ebbott moved to adjourn 6:30 a. m. tomorrow.

Supervisor Hofman submitted the following:

To the Honorable Board of Supervisors of Rock County—Gentlemen: Whereas the electors of the town of Spring Valley, at its town meeting held on the 7th day of April, 1914, voted to rebuild two bridges located as follows: One on highway between sections 30 and 31, crossing creek about 140 rods east of county line; and one in center of section 31, crossing same creek about 100 rods east of county line.

The electors of said town voted to

raise and appropriate the sum of five hundred dollars (\$500.00) to pay one-half the cost of said bridges, the total estimated cost being one thousand dollars (\$1,000).

Therefore we, the undersigned town board, respectfully petition your honorable body to appropriate the sum of five hundred dollars (\$500.00) to defray your proportionate part of the new boilers in the court house and town; therefore we, the undersigned, for incidents in connection with supervisors town of Center, do hereby new boilers left to discretion of building committee.

Adopted by the following vote:

Benson, Bingham, Crall, Cullen, Dalton, Denning, Doty, Ebbott, Hofman, Hansen, Hopkins, Hull, Keough, McGee, Marquart, McCarthy, O'Neal, Onsgard, Overton, Peterson, Rehfeld, Richardson, Ross, Smith, Steele, Stoney, Swingle, Sykes, Treadaway, Tullar, Warner, Wilford, Moseley—37.

Nays—0.

Absent—2.

Supervisor Omsgard submitted as follows:

To the Honorable County Board of Supervisors of Rock County—Gentlemen: Whereas the electors of the town of Plymouth at its annual town meeting held on the 7th day of April, 1914, voted to build five bridges, located as follows: Two bridges in section eleven (11), two bridges in section twenty-three (23), one bridge in section eight (8).

The electors of said town voted to raise and appropriate the sum of one thousand dollars (\$1,000) to pay one-half the cost of said bridges, the total estimated cost being two thousand dollars (\$2,000).

Therefore, we, the undersigned town board, respectfully petition your honorable body to appropriate the sum of one thousand dollars (\$1,000) as a share of the county for the building of said bridge, pursuant to chapter 435, laws of 1911.

Dated this 21st day of April, 1914.

FRED REHFEILD, M. C. FINLEY, CHAS. KILMER,

Town Board of Supervisors of the Town of Rock.

Attest: EDW. J. TRACEY, Town Clerk.

Referred to committee No. 12.

Supervisor Hansen submitted the following:

To the Honorable Board of Supervisors of Rock County, Wis.—Gentlemen: Whereas at a regular town meeting held in the town of Newark, in said county, on the 7th day of April, 1914, a special tax of \$1,500 was voted under chapter 435, laws of 1911, for the building of five bridges located as follows: One on the Newark and Orfordville road about 40 rods south of the Newark creamery; one on the same road about 15 rods south of what is known as King's corners; one on the Monroe road near the northeast corner of section 27; one on the Hanover road about 15 rods south of Keithline's corner; one on the same road about 95 rods south of the Emerson school house; the total estimated cost of said bridges being \$3,000. **Preparing For
The Club Women**

PRELIMINARY BULLETIN.

The Twelfth Biennial Convention of the General Federation of Women's Clubs will be held June 9 to 19, 1914, in the Auditorium, Chicago, Ill. A complimentary concert will be given on Tuesday evening by the Local Biennial Board.

Meeting of the council will be held at 10 o'clock Wednesday morning, June 10th, in the Auditorium Theatre; the formal opening of the convention will be on Wednesday evening, June 10th. On Thursday, June 11th, a Sociological Pilgrimage has been arranged by the Local Biennial Board.

Wisconsin headquarters are at Hotel Sherman.

Chicago is making gigantic plans to entertain the 10,000 delegates, attaches and visiting club women who will attend the Biennial Convention of the General Federation of Women's Clubs, June 9-19.

Boy scouts will assist the two hundred members of the transportation committee in caring for the baggage of the women as they arrive at the different railway stations, from which they will be conducted to the hotels to which they are assigned. Various attractive musical features by people of national reputation will brighten the hours devoted to work through sessions of the convention. Then there will be an immense excursion by automobiles. In fact, there will be six excursions. One will leave the Auditorium, going south on Michigan Avenue, Grand and Drexel boulevards to Washington Park, thence to Jackson Park and the South Shore Country Club. Returning a visit will be paid the University of Chicago, the public playgrounds of Sherman Park and Cornell Square, Fellowship House, a social center of which Mary McDowell has been the leading spirit, and Hull House, the creation of Jane Addams.

Tour B will leave the Congress Hotel and visit Hull House, Mark White Square, public playground whose activities have been directed by Mrs. Frank Jerome, Washington Park, the University of Chicago, Jackson Park, the South Shore Country Club, Drexel and Grand boulevards.

Tour C leaves the Blackstone Hotel, thence the Juvenile Delinquent Home, Henry Booth House, a social center, the Foster school, where the women will learn Chicago's method of serving penny luncheons, Hull House, the West Side Women's Club House, Lincoln Park, Garfield Park, with its splendid conservatory, the Cook County Hospital and Jackson Boulevard.

Tour D will leave the Young Women's Christian Association, 830 Michigan Avenue, will pass en route the Newberry Library, Seward Park and Hamlin Park, two of the public playgrounds of the city, will cover the Lake Shore Drive, passing some of Chicago's finest residences, will visit Lincoln Park, Garfield Park and its conservatory, Humboldt Park and the house of correction.

Tour E, leaving the Stratford Hotel, will proceed along the Lake Shore Drive through Lincoln Park, Humboldt Park, Garfield Park, stopping for visit at the conservatory, the Bridewell, Washington Park, the University of Chicago, Jackson Park, Chicago Beach Hotel and Grand boulevard.

Tour F will be a tour to Evanston over the Lake Shore Drive through Lincoln Park, Sheridan Road to the Northwestern University, a tour of the city of Evanston and a visit to the Evanston Woman's Club.

Each tour will see some of the beauty spots of Chicago's park and boulevard system, something of the congested and slum districts, something of social settlement work and the public playgrounds with their various means of entertaining the children. All tours will reach a designated point for luncheon at 12:30. Tours S and T will lunch at the South Shore Country Club and the Chicago Beach Hotel. The North Side tours will have luncheon at the Lincoln Park Refectory. West Side tours at the West End Woman's Club and the Evanston tour will be entertained at luncheon in the new Evanston Club building. More detailed information of the tours will be furnished by members of the excursions committee, in the foyer of the theatre at the time of the convention. All tours start at 9:00 a.m.

CUNNING, COURTESY AND CALM COMBINE
TO MAKE O'SHAUGHNESSY REAL DIPLOMAT

Nelson O'Shaughnessy (photographed last week in Washington).

Now that Nelson O'Shaughnessy's mission in Mexico is over, it is agreed by all that he handled the situation in that troubled country for his government as well as it could have been handled. That he possesses an amazing combination of cunning, courtesy and calm is evident, not only from the grateful testimony of American refugees from Mexico, but also from his achievement in getting on comfortably with three successive governments, all bitterly antagonistic to each other.

Good Prison Fare.

If what is said of French prisons be correct the wonder is that there are any people left outside. An official return of the necessities and luxuries supplied recently to the prison department shows that there is no stint. Among the edibles supplied are 84,000 tablets of chocolate, 17,000 kilogrammes of butter, 3,000 kilogrammes of coffee, 55,000 eggs, new laid, of course; 50,000 kilogrammes of Bologna sausage, 2,000 cheeses, 200 kilogrammes of caramels, and ten times the weight of other sweets. A kilogramme is nearly 2½ pounds.

EVANSVILLE COUNCIL DECIDE TO OIL STREETS

[SPECIAL TO THE GAZETTE.]

Evansville, May 14.—An adjourned regular meeting of the city council was held Tuesday night in the city hall. The meeting was called to order by Mayor Pearshall. Those present were: Alderman Axell, Babcock, Chapin, Shreve, Williams and Winston. The minutes of the previous meeting were read and corrected so as to read that the water and light commission were elected by ballot instead of appointed by the mayor. The street and alley commission reported favorably on the petitions for oiling streets as follows:

On Clinton street from First to Seminary; on Fifth street from Main street south to the line of the V. C. Holmes residence; on Liberty street from Madison to Third street; on Garfield avenue from Madison to Second street. Recommended that said streets be sprinkled with oil.

A resolution was passed authorizing the street and alley committee to purchase oil and sprinkle said streets with oil above mentioned.

A remonstrance against the oiling of Liberty street from Second to Third, signed by A. TenEck, W. Hatfield, A. Richardson and four others was received. It was moved and carried that the remonstrance be not allowed for the reason that a majority of property owners in the block had petitioned to have said block sprinkled with oil.

A resolution was passed allowing owners or occupants of any lots or parts of lots or parcels of land abutting on pavement which may be assessed for benefits on account of permanent improvements on said street may be granted an extension of payment of such assessment, provided they make application for such extension to the street and alley commission, adding as a board of public works, within thirty days from and after the publication of this resolution.

Moved and seconded that the sum of one thousand dollars be transferred from the general fund to the water and light fund.

Voting adjourned.

Dr. Springfield, W. J. Clark, R. M. Antes, F. W. Gillman, Dr. C. M. Smith and F. W. Hyatt, all of Milwaukee today to inspect the paving. They will also visit several towns.

Mrs. Almond Libby celebrated her birthday yesterday by entertaining a number of ladies at a coffee party.

The Yachtman of America will have a range in the Woodman Hall tonight May 14. Everyone is requested to bring their lunch, and coffee will be furnished them. A splendid time is expected.

D. C. M. Smith was an Albany professional visitor the fore part of the week.

A trained nurse from Janeville arrived yesterday to care for Miss Maggie Steele who is seriously ill. Mrs. Mary Brown went to Janeville yesterday to visit her brother, John Steele, who is in the hospital there and is reported a trifle better. W. C. Hawk of Brodhead was a visitor her today.

Mixed Metaphors.

A clergyman in an eastern town warned his hearers lately "not to walk in a slippery path, lest they be sucked, maelstrom-like, into its meshes." This metaphor suggests that of another clergyman who prayed that the Word might be as a nail driven in a sure place, sending its roots downwards and its branches upwards.

Explaining Ezekiel's Vision.

An eastern traveler now announces in all seriousness that Ezekiel's vision of the wheels—was probably inspired by a natural phenomenon, such as was seen about 1907 at sunset in Mesopotamia, by Dr. Hume Griffith.

The appearance of bright concentric rings, spokes, and wings in the afterglow tallied exactly with the prophet's de-

scription, and the time of year was also that referred to by Ezekiel.

Didn't Go Crazy Over It.
The inhabitants of lone St. Kilda heard the gramophone the other day for the first time. A steamer belonging to Messrs. McCallum of Glasgow touched at the island, and it was one of the passengers, Mr. Louis Barber, who had the distinction of taking the first gramophone to the island. The stolid St. Kildian, however, failed to display the wide-mouthed wonder which was expected of him.

WOMAN'S PAGE

The Evening Chit-Chat BY RUTH CAMERON

THE GREATER GIFT.
In the past year twenty-eight persons gave a million or over for charitable purposes. Wouldn't you feel proud if you had given away a million dollars? Reader friend, there's one thing we all are in danger of forgetting in this age of multi-millionaires and sensational gifts. And that is, a million dollars may be a small gift; a dollar may be a large one.

The greatest philanthropist I know is a widow with three children, a small income and a big heart. Whenever anyone in the neighborhood is sick, in want or in trouble, that woman appears upon his threshold, bringing with her not only generous material gifts when needed, but the greater gifts of service and self. Many a time after a busy day, instead of throwing herself upon a couch with her book, she slips around the corner to spend an hour reading to the little blind lady. Again and again, when some case of need has come to her attention, she has tramped around the neighborhood for hours collecting money for the unfortunate victims of our social order or their own incompetency.

Although she gives generously for a woman with so small an income, I don't suppose all the money she has given in her life would amount to a thousand dollars. And yet in the great balances, can you not picture that one thousand dollars plus her gift of service and self-sending some of our famous and fawned upon philanthropists' millions up out of sight?

You notice I say "some." That is because there are many kinds of wealthy philanthropists. There is the man who has taken many millions out of the soil or out of other men's rightful earnings, and who, after keeping all he can possibly use for himself, gives back the rest to charity and basks in the sunshine of flattery he receives for his noble deeds.

And then there are the men who give as Daniel Ford gave. He was a man of moderate fortune as fortunes go now, but accounted wealthy in his day. All his life he gave lavishly and lived in comparative simplicity. He had one luxury. He was passionately fond of the ocean and he owned a small steam yacht on which he came to town every morning from his summer place. One day the spectacle of poverty touched him more deeply than usual, and after struggling with his conscience he gave up that last beloved luxury.

Again think of the heart stirring gift of Reed B. Freeman of Blinghampton, N.Y., who gave up his whole fortune to the families of the thirty girls who died when his factory burned. He gave all he had which was estimated at about three million, not even reserving a humble competence for himself, and at sixty-five years of age has gone to work as a clerk. He was somewhat different from the proprietors of the shirt waist factory in New York, who was the other day for looting the doors, the very thing which caused many of the deaths at the time of his fire.

Of course, the rich may give themselves with their money just as much as the poor, but how often do they? As a letter friend trenchantly writes, "Perhaps one of the reasons why it is so hard for the rich to enter the Kingdom of Heaven is the fact that they get so much applause for what costs them little or nothing and fail to cultivate the graces because it is so easy for them to make gifts."

Household Hint.

THINGS WORTH KNOWING. When food is accidentally made too salty it may be counteracted by adding a tablespoonful each of vinegar and sugar.

If in a hurry to use ripe tomato, here is a quick way to remove the outside skin: Stick a fork in the tomato and hold over the gas flame until the skin breaks. You can then easily peel the whole skin.

To disinfect a room put some fresh camphor in a saucer, place a small piece of camphor in the middle and light it with a match.

Fried Salt Pork With Codfish. Cut fat salt pork in one-fourth inch slices, cut gashes one-third inch apart in slices, nearly to the rind. Fry out in a hot frying pan until brown and crisp, occasionally turning off the fat from the pan. Serve around strips of codfish which have been soaked in pan of lukewarm water and allowed to stand on the back of the range until soft. Serve with drawn sauce, boiled potatoes and beets.

Tomato Fritters. —One can of tomatoes, six cloves, one-eighth cup of flour, three slices of onion, one teaspoonful of salt, few grains of cayenne, one-quarter cup of butter, one-half cup corn starch, one egg. Cook

the first four ingredients twenty minutes, rub all through a sieve except the seeds and season with salt and pepper. Melt the butter and when bubbling add the cornstarch and the tomato gradually. Cook two minutes, then add the egg slightly beaten. Pour into a buttered shallow tin and cool. Turn on a board, cut in squares, diamonds or strips. Roll in crumbs, egg and crumbs again, fry in deep fat.

Rice and Tomato Croquettes. —One-half cup of rice, three-quarters cup of stock, one-half can of tomatoes, one slice of onion, one slice of carrot, one sprig of parsley, one sprig of thyme, two cloves, one-quarter teaspoonful of pepper, one-quarter teaspoonful of sugar, one egg, one-quarter cup of grated cheese, one-quarter cup of salt, few grains of cayenne. Wash the rice and steam in stock until the rice has absorbed the stock, then add the tomatoes which have been cooked twenty minutes with the onion, carrot, parsley, thyme, cloves, pepper, corns and the sugar. Drain, then rub through a strainer. Remove from the fire, add the egg slightly beaten, cheese, butter, salt and cayenne. Spread on a plate to cool. Shape in form of cylinders,

then roll in crumb, egg and crumb.

Staffordshire Fig Pudding. —Chop six ounces of suet and make smooth paste with three-fourths of a pound of flour and milk to moisten, add salt, roll out a half-inch thick and spread with a pound of finely chopped figs. Roll up, pinch both ends, tie in a padding cloth and boil for two hours.

CHAPTER ON FOREIGN PUDDINGS.

The boiled pudding is the great English dessert, and it is found in all places. They are mostly boiled in cloth; molds are seldom used except for a very elaborate pudding.

Baroness Pudding. —Chop very fine three-fourths of a pound of suet, add the same amount of seeded raisins, mix with three-fourths of a pound of flour, a half teaspoonful of salt and a cupful of milk. Beat well and tie in a pudding cloth wrung out of hot water. Put the pudding into a kettle of boiling water and boil without ceasing for five hours. Serve with powdered sugar.

Delhi Pudding. —Pare, core and cut into slices four large apples; put them into a saucepan with a little grated nutmeg, one teaspoonful of grated lemon peel and four tablespooms of sugar; stew with very little water until the apples are tender. Makes a rich biscuit crust, spread with the apples a few currants, then roll up, tie in a floured cloth and boil for two hours.

Queen Elizabeth Pudding. —Sweeten a pint of milk to taste, add a little grated lemon peel and four well beaten eggs. Line a buttered mold with raisins cut in half. Spread slices of sponge cake with marmalade and place in the mold. Pour in the custard, tie the pudding down with paper and a cloth and boil gently for one hour. Let cool slowly and when cold turn out of the mold and serve.

West Indian Pudding. —Crumble half a pound of sponge cake and pour over it a pint of hot sweetened cream. Beat eight eggs and add to the cream. Butter a mold and line with three tablespooms of thinly sliced preserved ginger. Carefully pour in the pudding, tie down with a floured cloth, and boil or steam for an hour and a half. Serve with whipped cream flavored with brandy.

St. Staffordshire Fig Pudding. —Chop six ounces of suet and make smooth paste with three-fourths of a pound of flour and milk to moisten, add salt, roll out a half-inch thick and spread with a pound of finely chopped figs. Roll up, pinch both ends, tie in a padding cloth and boil for two hours.

Countess Edmond de Pourtales. —What do you say to a big white & frosted birthday cake for the table centerpiece, decorated with pink little candies and with a big pink or white candle in the middle? Or you might have a top decorated with tiny pink candies as many as mother's years. Around the cake, on the tablecloth, are wreaths made of little bunches of flowers—sweet peas, pansies or anything that is blooming. Have as many bunches as there are guests. The narrow pink ribbon to each bunch, having each ribbon long enough to reach to the guest's plate. Each guest should pull a ribbon to get a bunch of flowers. Mother's bunch is the biggest and prettiest, and in it have a card reading, "Wishing our dear mother many happy returns of the day."

(2) Furnish strawberries and cream, or cherry shortcake, and whatever you wish to drink. Ask the guests to bring the rest, as it is a "surprise."

Dear Mrs. Thompson: I am an novice with bedbugs. How can I get rid of them?

J. J. V.

I have been told that gasoline

poured generously around beds, mothboards, etc. will in time kill off the bugs. This is apt to be dangerous,

however, as striking a match in a room so treated is apt to cause an explosion.

Alum is recommended by some.

One lady says sheimmered ever-

thing she could in alum water and to get rid of bugs in the walls she

powdered alum in an insect powder

bottle and blew the powder into

every crack and crevice. She got rid of the bugs.

Another remedy is to dissolve a

small cake of camphor gum in one-

half pint of wood alcohol. Sprinkle

this everywhere, with a machine oil can. This is inexpensive and safe

and is said to be very effective.

Women Worth White

Mrs. Thomas P. Gore.

(By Selene Armstrong Harmon.)

"My Hobby," laughed Mrs. Thomas P. Gore, when I asked her, "is one perfectly appropriate for a senator's wife; Campaigning. I dearly love it.

It was when William Jennings Bryan first loomed up large on the Democratic horizon that Mr. Gore joined the Democratic party.

"I always had a great ambition for my husband," Mrs. Gore says. "When our friends out there in Oklahoma begged him to run for seat in the house on the ground that the campaigning necessary to win that election would be comparatively light, I did not want him to do it. I wanted him to announce for the senate. And he did."

As soon as her husband's candidacy for the senate was announced, Mrs. Gore moved her sewing machine out of the sewing room and turned this place into an office and went about her new job of campaign manager. A perfectly business-like woman, until he had been elected to a seat in the senate, Mr. Gore used the little sewing room as campaign headquarters.

Needless to say, when her husband was elected to the United States senate, Mrs. Gore was the proudest and happiest individual, his mother not excepted, in the state of Oklahoma.

It is safe to surmise that Mrs. Gore is the only statesman's wife in Washington who has read as much political economy as her husband, and it goes without saying that she has read more weighty books than any other women in Washington.

During the years of their married life she has been reader to Senator Gore, who sees the world largely through his wife's eyes. This may be the reason why it seems to him beautiful and a good world.

Heart and Home Problems

BY MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: We are going to give a surprise birthday gift for mother and have invited about twenty-five people.

(1) What would be a nice table decoration?

(2) What would be a suitable gift for this time of year? Would it be proper to ask the guests to help furnish the dinner?

(3) Better show him that you can be popular with some of the other young men. Perhaps he will "tumble." If he doesn't, make up your mind that he isn't thinking of marrying you. It's never wise to "go steady" with any man unless you are engaged to him. The other girls drop away and finally, when your "steady" drops you, you are left out in the cold.

Dear Mrs. Thompson: I am a young lady of twenty and have been going with a young man of the same age for three years off and on. We never quarrel like most of the boys and girls do. He has red hair. Is this the sign of temper? He does not show it if he has it. He says he loves me. Do you think I ought to know by his hair?

BROKEN HEARTED GIRL.

The color of the hair has nothing whatever to do with one's temper. Some of the sweetest natured people in the world have red hair.

If this young man has been constant for three years he must be pretty well.

However, he is still pretty young to trust in the matter. If he really loves you, he should ask you to marry him as soon as he is old enough to marry (when he is twenty-one). That is the sure proof.

Certain of Its Reward.

There never was a great institution or a great man that did not sooner or later receive the reverence of mankind.—Theodore Parker.

SIMPLE HAIR STYLES THIS YEAR

The "English Bam" with its accompanying bows of simple styles which are back to our own sunbonnet days, is here to stay. To spend a long time. Somewhat woman's hair never looks as attractive as when it is dressed in the simple styles which suit the face of the wearer. However, the simple methods leave less opportunity for artifice and make greater care necessary in keeping the hair clean and lustrous. Camphor is a hair tonic which offers quiet, simple and economical way to cleanse the scalp. It will restore to the hair its soft, fluffy, rich gloss and natural color. You make it by dissolving two teaspoonsful camphor, which you add to a cup of warm water, then pour slowly on the head as you rub briskly. This makes a thick, soothng lather that relieves irritation, makes the head feel good and puts the scalp in a healthy condition, which assures beautiful, healthy hair.—Advertisement.

RENT STRIKE CAUSE OF MILITANT SPLIT

Reason Why Sylvia Pankhurst Was Read Out of Party Over Boycotting The Rent Collectors. [SPECIAL TO THE GAZETTE.]

London, May 14.—Mrs. Pankhurst and Christabel couldn't stand for the no rent strike. This is the real reason why the W. S. P. U. has read Sylvia out of the party.

For weeks past Sylvia and her East London Federation of Suffragettes they call themselves, have been organizing a movement among the industrial population of the East End, as a protest against present labor conditions as well as an argument for woman suffrage, to boycott the rent collectors. The plan is, on a given rent day, for all sympathizers with the cause to refuse to pay their rent to resist eviction by force. Several hundred tenants have already signed the anti-rent pledge, to become effective when word is given. Sylvia having agreed to call out her "People's Army," if necessary, for their protection.

There was a "no rent" strike in Chicago a couple of years ago, you will remember, said Sylvia today.

"There was only one section, and when that took place the strike came along and wrecked the building. There won't be even one eviction in the East End of London."

"It is untrue," she added, "that we have entered into an alliance with the Socialists or any other party. We remain non-party, as well as militant. We are, however, willing to cooperate with any organization or collection of individuals who sympathize with our cause. It is true that

CHAPTER X.

Everything But the Truth.

"I don't see why the colonel didn't invite some of the ladies," Mrs. Harrigan complained.

"It's a man party. He's giving it to please himself. And I do not blame him. The women about here treat him abominably. They come at all times of the day and night, use his card room, order his servants about, drink his whisky and smoke his cigarettes, and generally invite themselves to luncheon and tea and dinner."

And then, when they are ready to go back to their villas or hotel, take his motor-boat without a thank you. The colonel has about three thousand pounds outside his half-pay, and they are all crazy to marry him because his sister is a countess. As a bachelor he can live like a prince, but as a married man he would have to dig. He told me that if he had been born Adam, he'd have climbed over Eden's walls long before the Angel of the Flaming Sword paddled him out. Says he's always going to be a bachelor, unless I take pity on him," mischievously.

"Has he . . .?" in horrified tones.

"About three times a visit," Nora admitted; "but I told him that I'd be a daughter, a cousin, or a niece to him, or even a grandchild. The latter presented too many complications, so we compromised on niece."

"I wish I knew when you were serious and when you were footloose."

"I am often as serious when I am fooling as I am foolish when I am serious . . ."

"Nora, you will have me shrieking in a minute!" despaired the mother. "Did the colonel really propose to you?"

"Only in fun."

Celeste laughed and threw her arm around the mother's waist, less ample than substantial. "Don't you care? Nora is being pursued by little devils and is venting her spite on us."

"There'll be too much Burgundy and tobacco, to say nothing of the awful stories."

"With the good old padre there? Hardly," said Nora.

Celeste was a French woman. "I confess that I like a good story that isn't vulgar. And none of them look like men who would stoop to vulgarity."

"That's about all you know of men," declared Mrs. Harrigan.

"I am willing to give them the benefit of a doubt."

"Celeste," cried Nora, gaily, "I've an idea. Supposing you and I run back after dinner and hide in the card room, which is right across from the dining room? Then we can judge for ourselves."

"Nora Harrigan!"

"Molly Harrigan!" mimicked the incorrigible. "Mother mine, you must learn to recognize a jest."

"Ah, but yours!"

"Fine!" cried Celeste.

As if to put a final period to the discussion, Nora began to hum audibly an aria from Aida.

They engaged a carriage in the village and were driven up to the villa. On the way Mrs. Harrigan discussed the stranger, Edward Courtland. What a fine looking young man he was, and how adventurous, how well-connected, how enormously rich, and what an excellent catch! She and Celeste—the one innocently and the other provocatively—continued the subject to the very doors of the villa. All the while Nora hummed softly.

"What do you think of him, Nora?"

the mother inquired.

"Think of whom?"

"This Mr. Courtland."

"Oh, I didn't pay much attention to him," carelessly. But once alone with Celeste, she seized her by the arm, a little roughly. "Celeste, I love you better than any outsider I know. But if you ever discuss that man in my presence again, I shall cease to regard you even as an acquaintance. He has come here for the purpose of annoying me, though he promised the perfect in Paris never to annoy me again." "The prefect!"

"Yes. The morning I left Versailles I met him in the private office of the prefect. He had powerful friends who aided him in establishing an alibi. I was only a woman, so I didn't count."

"Nora, if I have meddled in any way," proudly, "it has been because I love you, and I see you unhappy. You have nearly killed me with your sphinxlike actions. You have never asked me the result of my spying for you that night. Spying is not one of my usual occupations, but I did it gladly for you."

"You gave him my address?" coldly.

"I did not. I convinced him that I had come at the behest of Flora Desimone. He demanded her address, which I gave him. If ever there was a man in a fine rage, it was he as he left me to go there. If he found out where we lived, the Calabrian assisted him. I spoke to him rather plainly at tea. He said that he had had nothing whatever to do with the abduction, and I believe him. I am positive that he is not the kind of man to go

watched and listened. Faces were generally booked to him, and he read in this young man's face many things that pleased him. This was no night rover, a fool over wine and women, a spendthrift. He straightened out the lines and angles in a man's face as a skilled mathematician elucidates an intricate geometrical problem. He had arrived at the basic knowledge that men who live mostly out of doors are not volatile and irresponsible, but are more inclined to reserve, to reticence, to a philosophy which is broad and comprehensive and generous. They are generally men who are accomplishing things, and who let other people tell about it. Thus, the padre liked Courtland's voice, his engaging smile, his frank unwavering eyes; and he liked the leanness about the jaws, which was indicative of strength of character. In fact, he experienced a singular jubilation as he walked beside this silent man.

"There has been a grave mistake somewhere," he mused aloud, thoughtfully.

"I beg your pardon," said Courtland.

"I beg yours. I was thinking aloud. How long have you known the Harrigans?"

"The father and mother I never saw before today."

"Then you have met Miss Harrigan?"

"I have seen her on the stage."

"I have the happiness of being her confessor."

They proceeded quite as far as a hundred yards before Courtland volunteered: "That must be interesting."

"She is a good Catholic."

"Ah, yes; I recollect now."

"And you?"

"Oh, I haven't any religion such as requires my presence in churches. Don't misunderstand me! As a boy I was bred in the Episcopal church; but I have traveled so much that I have drifted out of the circle. I find that when I am out in the open, in the heart of some great waste, such as a desert, a sea, the top of a mountain, I can see the greatness of the Omnipotent far more clearly and humbly than within the walls of a cathedral."

"But God imposes obligations upon mankind. We have ceased to look upon the hermit as a holy man, but rather as one devoid of courage. It is not the stone and the stained windows; it is the text of our daily work, that the physical being of the church represents."

"I have not avoided any of my obligations," Courtland shifted his stick behind his back. "I was speaking of the church and the open field, as they impressed me."

"You believe in the tenets of Christianity?"

"Surely. A man must pin his faith and hope to something more stable than humanity."

"I should like to convert you to my way of thinking," simply.

"Nothing is impossible. Who knows?"

The padre, as they continued onward, offered many openings, but the young man at his side refused to be drawn into any confidence. So the padre gave up, for the futility of his efforts became irksome. His own lips were sealed, so he could not ask point blank the question that clamored at the tip of his tongue.

"So you are Miss Harrigan's confessor?"

"Does it strike you strangely?"

"Merely the coincidence."

"If I were not her confessor I should take the liberty of asking you some questions."

"It is quite possible that I should decline to answer them."

The padre shrugged. "It is patent to me that you will go about this affair in your own way. I wish you well."

"Thank you. As Miss Harrigan's

confessor you doubtless know everything but the truth."

The padre laughed this time. The shops were closed. The open restaurants by the water front held but few idlers. The padre admired the young man's independence. Most men would have hesitated not a second to pour the tale into his ears in hope of material assistance. The padre's admiration was equally proportioned with respect.

"I leave you here," he said. "You will see me frequently at the villa."

"I certainly shall be there frequently. Good night."

Courtland quickened his pace which soon brought him alongside the others. They stopped in front of Abbott's pension, and he tried to persuade them to come up for a nightcap.

"Nothing to it, my boy," said Harrigan. "I need no nightcap on top of of cognac 48 years old. For me that's a whole suit of pajamas."

"You come. Ted."
